- 2-way, center channel bass reflex speaker
- Two 6-inch woofers
- 1-inch DTT/WaveGuide tweeter
- Hard Conical Cone (HCC) woofers
- Active Impedance Correction (AIC)

C 80 CEN

The C 80 CEN is a feature-packed, 2-way bass reflex speaker, that uses two 6-inch woofers and a 1-inch decoupled tweeter to deliver remarkably accurate sound, tailored to its low-profile center channel cabinet. It features a tweeter with Decoupled Tweeter Technology (DTT) and WaveGuide, a woofer unit that uses Hard Conical Cone and Center-Plug technology. Furthermore, the C 80 CEN comes with an Active Impedance Correction system, which neutralizes the magnetic field around the pole piece, to reduce distortion by up to 50%.

The C 80 CEN can be placed on a speaker stand, book-shelf or on a TV, allowing the arc-shaped speaker to be angled towards the listening position and, just as importantly, ensuring stable placement of the speaker. The C 80 CEN brings movie dialogue, music and effects to life. Because it's magnetically shielded, it doesn't create onscreen image distortion if it's used in combination with a traditional CRT television.

Whether you are looking for the ideal cinematic experience, the C 80 CEN center channel speaker makes an outstanding choice, placing you at the center of all the cinematic action.

Specifications

System Type	2-way bass reflex shielded
Woofer (mm/in)	2 x 155 / 6
Tweeter (mm/in)	25 / 1 DTT
Power (W, long/short term)	160 / 320
Sensitivity (dB, 2.8V/1m)	88
Frequency Range (Hz)	70 - 24,000
Impedance (Ohm)	6
Weight (kg/lb)	11.6 / 25.6
Product dimensions (mm/in, HxWxD)	212 x 501 x 281 / 8.3 x 19.7 x 11.1
Finishes	Black Ash or Dark Apple
