Let us entertain you

Normally the installation of THX sound systems require a dedicated room, i.e a home movie theater. The size and the industrial design of virtually all THX systems dictate that the speakers are hidden behind curtains and walls

Not anymore! The size of the new D 500 THX Select2 loudspeaker system allows direct placement in most medium sized living rooms. In addition to the compact dimensions these speakers are styled in a way that accommodates many contemporary decorations and furniture combinations. Finished in high gloss lacquer these speakers add a musical instrument touch to the modern home.

Equipped with carefully engineered loudspeaker drive units the new D 500 series deliver impeccable reproduction of even the most demanding movie sound track, from the deepest bass to the highest highs. In addition to outstanding movie entertainment the D 500 will give the end user a very satisfying reproduction of music, be it from stereo MP3 files or full scale DVD-Audio or SACD.

Specifications	D 600 SUB
System	Active DSP based subwoofer, sealed enclosure. Motional feedback
Usef interface	Touch panel with backlight
