

J 12 SUB

The latest subwoofer line from Jamo offer high value with stylish aesthetics. By utilizing modern materials and core technologies, the J 12 SUB makes your home theater and music listening experiences unforgettable. With an amplifier capable of 400W of peak power, this subwoofer can deliver higher sound-pressure levels at lower distortion, resulting in maximum musical fidelity and reproduction of details.

The J 12 SUB is equipped with a 12" front firing, aluminized polyfiber woofer that provides exceptionally low frequency response with minimal distortion. The all-digital amplifier delivers clean high efficient power and accuracy in reproduction. Housed in a MDF cabinet with a sleek wood grain vinyl to match our highly acclaimed Studio line, this versatile subwoofer seamlessly integrated into any décor.
